

## Volunteer Opportunity for Voice and Speech Research Study

The National Center for Voice and Speech-Denver is looking for individuals with **Parkinson's disease (PD)** and **healthy aging adults** (age 45- 85), to be in a research study to determine the effects of speech treatment for individuals with PD.

Participation is voluntary, compensation will be provided, and assessments &/or treatment provided free of charge.

The principal investigator is Lorraine Ramig, Ph.D. For more information contact the research coordinator, **Heather Gustafson, M.A., CCC-SLP** at [heather.gustafson@colorado.edu](mailto:heather.gustafson@colorado.edu) or by phone at (303) 534-0324. (COMIRB#00-606, HRC#1000.22).
