

National Center for Voice and Speech presents:

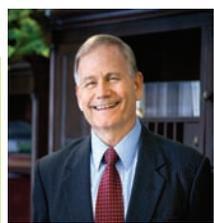

2013 SINGERS WORKSHOP

TRAINING with TECHNOLOGY

August 6-9, 2013 (Salt Lake City, Utah)

Join the NCVS along with renowned voice scientists and vocal trainers, for a 4-day singing workshop with "wired" master classes. Melding professional voice and technology, these enhanced techniques will explore in-depth singing instruction, using technology in the studio.

Keynote Speakers

Ingo R. Titze, Ph.D.

Cynthia Munzer
Mezzo-soprano

Brian Gill, Ph.D.
Tenor

John Nix
Tenor

Stephen Robertson MA

- Understand how vocal health and voice science are intertwined.
- Learn spectrographic & EGG technology that can be used in the studio to help with singing instruction & biofeedback.
- Gain hands-on experience by presenting your own teaching techniques in an open session, while being 'wired' with the technology
- Participate in four days of focused master classes
- This 4-day event for only \$600 (professional)
\$500 (student)

Note: The first day will be intensive review of acoustics, recording and technology. You may opt to attend only the final 3 days for \$525.
